*"In Arinda internet we found not only a solution but a business relationship that continues to grow in accordance with our operational needs. Since investing in Arinda internet's suite of internet billing solutions we have benefited from many other system developments. This is a clear example of a dynamic, forward thinking company that wants to forge strong customer alliances but is focused on remaining cutting edge within the industry."*

*"Arinda internet's products give us the ability to exert total control of all our end users on multiple remote sites throughout Australia. No other solution could provide us the comprehensive instrumentation required for debugging, inspecting, recording, analyzing and understanding how end-users consume the available resources."*

*Aaron Pirie- General Manager*
