Testimonial.

We would like to take this opportunity to thank Arinda, for assisting us with choosing the correct Wireless Internet Service, which suits the requirements of our guests and owners. We did not realize how much guests have come to rely on Broadband, until we installed the Wireless Hot Spot. Guests have chosen to book with us, where previously they chose to book with another accommodation house who would provide this service.

Having chosen the suitable Wireless Broadband, Aaron and Melinda patiently explained how easy it was to connect to the Internet from each apartment and provided clear easy to read instructions for Guests and Owners.

The staff at Arinda have been friendly, helpful and courteous with no problem being too big or small to handle. Their response time has been commendable and we would have no hesitation in recommending their products to other Managers. We look forward to using them in the future for further Internet requirements. Thank you Aaron Melinda and Staff.
