Chevron Renaissance Centre, Surfers Paradise

To Whom It May Concern

Re: ARINDA HOLDINGS PTY LTD

We have been doing business with Arinda Holdings Pty Ltd since July 2006. During this time they set up 6 internet kiosks with a WIFI facility that operates throughout the restaurant. They also set up a P.O.S system and camera support which is used to great advantage in operating a professional business twenty four/seven.

At all times, we have found the company to be totally reliable, honest, professional and, most importantly, they deliver on time.

There have been many occasions when we have had to call on their services at odd, out of normal hours, and they have always been understanding of our problem and jumped in to fix it.

Master Club Consultants Pty Ltd has just recently signed up for an Extended Hours Support Plan, which confirms our belief in the Arinda team.

Finally, during the past 5 years we have watched Arinda grow from strength to strength and would not hesitate in recommending their technical services and all other aspects of this company.
