Testimonial for Arinda

We are owners of a Holiday complex and required a local Internet Service provider who could meet the needs and problems our older style complex presented when trying to provide wireless internet in rooms for our guests.

Arinda Internet (Arinda Holdings P/L) became our provider.

The technicians after viewing our needs were able to recommend the best solution to providing internet access in our apartments.

Installation of the internet into our units and office was undertaken in an efficient and non intrusive manner resulting in little disruption to our everyday running of the business.

We have been extremely satisfied and pleased with their technical support and also their efficient service.

Technical support is only a phone call away and on the rare occasions that we have needed technical assistance, there has been a quick response.

Arinda Staff are friendly and try to assist with any concerns as quickly as possible.

They have even been able to instruct me (computer illiterate) on how to solve a problem over the phone.

We highly recommend Arinda Internet for all your Internet needs.

Yours truly
Liz and Steve Craig
